Helis Academy Patient Centricity in Clinical Trials 2019

Title: Patient Centricity in Clinical Trials

Language: English

When: 6-7 November 2019

Programme: link naar pdf document

Price: 150 Euro (excl. VAT)

Venue: Rode bol, Sint-Denijslaan 485, 9000 Gent

Day 1: MeetingCentR4, Communicatiecampus, Sint-Denijslaan 487, 9000 Ghent, Belgium

Day 2: Clinical Pharmacology Unit Janssen, Lange Bremstraat 70, 2170 Antwerp, Belgium

Description

This project is funded by the European Regional Development Fund. This project is co-financed by the Agency for Innovation & Entrepreneurship and the province of West Flanders.

There's a lot of talk about patient centricity in the clinical trial arena these days, and for good reason. Companies today are more open and do not view patients as mere "subjects" who generate data, – but as informed collaborators whose participation is "core" to the overall success of trials leading to the emergence of the concept of "patient-centric trials."

But what does it mean to be patient centric, practically speaking? What tactics are leading pharma companies employing to make centricity a reality in their trials? What does patient centricity mean for your role? And what does it mean from a patient perspective?

This course is intended to provide an answer to these questions through lectures, practical lessons, workshops and a guided tour.

Helis Academy

Who should attend

(Junior) CRA's and Clinical Trial Managers who want to learn how to make patient centricity in clinical trials a reality.

Organiser(s):

This course is part of the Clinical Testing theme of Helis Academy and is organised by flanders.bio and Vives. More info about other courses can be found on the website of the Helis Academy.

Helis Academy

Course: Patient Centricity in Clinical Trials

Language: English

When: 6-7 November 2019

Venue :

Day 1: MeetingCentR4, Communicatiecampus, Sint-Denijslaan 487, 9000 Ghent, Belgium

Day 2: Clinical Pharmacology Unit Janssen, Lange Bremstraat 70, 2170 Antwerp, Belgium

DAY 1

8:30 – 10:00	<p>Introduction: what does patient centricity mean?</p> <p>The central role of patients in clinical trials:</p> <p>Involvement of patients in the design of clinical trials</p> <p>Involvement of patients in the development of the informed consent</p>	Anneleen Lintermans, Policy Officer, Vlaams Patiëntenplatform
10:00 – 10:30	Coffee Break	
10:30 – 12:30	<p>Importance of strategy behind patient centric clinical trials</p> <p>How does GDPR and ethics connect with patient centric recruitment?</p> <p>The role of social media in patient centric recruitment</p>	Nathalie Niclaus and Barbara D'haene, co-founders/patient recruitment specialists, Akcelis 'The patient management company'
12:30 – 13:30	Lunch	

Helis Academy

13:30 – 16:30	Workshop: 'Patient Engagement: What does it mean for your role?' Coffee Break	Janssen
16:30 – 17:00	Patient Testimony: 'What does patient centricity mean for me?'	Mitchell Silva, Patient Entrepreneur, Esperity

DAY 2

13:00 – 16:00	Visit of the Clinical Pharmacology Unit (Phase 1-unit) of Janssen, Merksem

Helis Academy

Helis Academy Patient centricity in clinical trials course for professionals

Are you into clinical research? Do you believe in patient centricity as a key innovation within clinical development and the healthcare industry? Then this one and a half course on patient centricity and engagement is something for you. You will gain knowledge and insights that will allow you to put patient centricity into practice.

The culture of clinical development is evolving from one directed by researchers to one driven by patient needs and perspectives. Patients are no longer seen as mere subjects who generate data but as informed collaborators whose participation is vital for the overall success of clinical trials. Patient-oriented clinical development is increasingly becoming the model that the industry follows. Patient centricity means designing a clinical trial around the patient. Clinical trials often struggle with both patient enrolment and retention. Creating a patient-centric solution involves getting feedback from patients themselves and making decisions based on their needs and perspectives. Identifying and addressing unmet patient needs has become a key goal in clinical research. Patient-centric approaches to clinical trials are harnessed to achieve this goal.

But what does it mean to be patient centric, practically speaking? What tactics are leading pharma companies employing to make centricity a reality in their trials? What does patient centricity mean for your role as CRA or Clinical Trial Manager? And what does it mean from a patient perspective? This course is intended to provide an answer to these questions through lectures, testimonies, a workshop and a guided tour.

Programme

Download the programme here.

Objectives

At the end of this short course you should have a clear understanding of:

- What patient centricity means.
- The role of patients in clinical trials.
- The importance of strategy behind patient centric clinical trials.
- Gaps and points of improvement concerning patient centricity in clinical trials.
- The perspective on patient centricity from the point of view of a patient, a study coordinator, the FAMHP, a CRO and a biotech company.

Target group

This course is aimed at (Junior) CRA's and Clinical Trial Managers who want to learn how to make patient centricity in clinical trials a reality.

Practical information

The aim is to organise the course physically. We have experience in organising trainings for small groups in COVID19 times. The necessary measures will be taken to organise the course safely and with attention to social distancing and hygiene. Only when measures taken by the government prevent us from organising a physical course, a digital alternative will be organised.

Helis Academy

When? From 18-19 November 2020.

Where? Flanders.bio, Jean-Baptiste de Ghellincklaan 13/0102, 9051 Ghent, Belgium.

Registration fee? The registration fee for the one and a half day course is €150 (excl. VAT) for non-members and €125 (excl. VAT) for flanders.bio members.

Registrations are open until the 19th of October 2020.

To allow the course to be safely organised the number of registrations will be limited to 10.

Organisers:

This course is part of the Clinical Development theme of Helis Academy, a project funded by INTERREG and is organised by flanders.bio and [Vives Hogeschool](https://viveshogeschool.be). More info about other courses can be found on the website of the Helis Academy.

Partners

The following companies and organisations are involved (as speakers) in the Helis Academy Patient centricity in clinical trials course for professionals: Patient Centrics – Esperity, EUPATI, Pivotal – Patient Journey, AZ Delta, FAMHP, IQVIA, Galapagos

Terms and conditions

Performance of services

Flanders.bio and VIVES commit to perform the agreed training (Patient centricity in clinical trials course for professionals) to the best of their ability. In case of insufficient participation in or in case of force majeure prior to or during this training, flanders.bio has the right to cancel the course or to move it to a later time. For practical reasons, the maximum number of participants is limited to 10. When cancelled or postponed to a later date, any registration fees paid will be refunded.

Cancellation policy

Only written cancellations will be processed. If cancelled more than 20 days prior to the first day of training, an administration fee of €10 will be charged, except unemployed job seekers. In case of cancellation on or after 20 days prior to the first day of training, the full registration fee will be charged. Upon premature termination of participation to the multi-day course, registration fees will not be refunded.

No show

If you are not present at the training (unless you are ill and in the possession of a doctor's note) or do not cancel in time, the full registration fee will be charged.

Replacement

When unable to attend, a colleague can take your place. Report your hindrance and/or replacement of participation to flanders.bio as soon as possible. Replacement after the start of the training is not possible.

Registration fee

The registration fee for the one and a half day course is €150 (excl. VAT). The registration fee for flanders.bio members is €125 (excl. VAT).

Certificate

At the end of the one and a half day training, participants which have followed the complete course will receive a certificate of participation.

Helis Academy

Course (for professionals): Patient Centricity in Clinical Trials

Language: English

When: 18-19 November 2020

DIGITAL EVENT

DAY 1 (18 November)

09:00 – 09:10	Welcome	Flanders.bio	Live session
09:10 – 09:30	Introduction: what does patient centricity mean?	Mitchell Silva, Patient Entrepreneur, Patient Centrics - Esperity	Live session
09:30 – 10:10	The central role of patients in clinical trials. Involvement of patients in the design of clinical trials. Involvement of patients in the development of the informed consent.	Linda Grine, EUPATI	Live session
10:10 – 10:30	Break		
10:30 – 11:10	Gaps and points of improvement concerning patient centricity in clinical trials.	Mitchell Silva, Patient Entrepreneur, Patient Centrics - Esperity	Live session
11:10 – 11:20	Break		
11:20 – 12:30	Importance of strategy behind patient centric clinical trials. How does GDPR and ethics connect with patient centric recruitment? The role of social media in patient centric recruitment.	Nathalie Niclaus and Barbara D'haene, co-founders/patient recruitment specialists, Pivotal - Patient Journey	Live session

Helis Academy

DAY 2 (19 November)

09:00 – 09:30	Study Coordinator testimony: 'What does patient centricity mean for me?'	Melissa Masschelin, Study Coordinator, AZ Delta	Recorded session
09:30 – 10:00	Patient testimony: 'What does patient centricity mean for me?'	Francky Bouckenoghe	Recorded session
10:00 – 10:20	Break		
10:20 – 10:50	Patient involvement in clinical trials assessment and clinical trial related scientific advice procedures: a FAMHP perspective.	Christophe Lahorte, FAMHP	Live session
10:50 – 11:20	Patient centricity and engagement: the CRO perspective.	Dominique Blankaert, IQVIA	Live session
11:20 – 11:40	Break		
11:40 – 12:30	Panel discussion on patient centricity.	Heidi Muller, Galapagos Mitchell Silva, Patient Centrics – Esperity Dominique Blankaert, IQVIA	Live session
12:30 – 12:40	Wrap-up and closure	Flanders.bio
